### MONITOR OPTIONS:

- SPACE EFFICIENT TFT
- STANDARD CRT
- MOUNTING OPTIONS
- INDEPENDENT CAMERA CONTROLS & SELECTION

*Typical Hazardous Area Dual TFT Screen*

THE CCTV SYSTEM IS CERTIFIED TO COMPLY WITH HARMONISED EUROPEAN STANDARDS

# DRILLER'S TV

## DESCRIPTION

The stainless steel Driller's TV Systems are designed specifically for the harsh oil and gas environment. Each tailor-made system can be as comprehensive as necessary and progressively expanded, in line with operational requirements.

**Camera controls and select switches** are normally front panel mounted. Alternatively the components can be mounted on a small stainless steel plate, ready for location in convenient area.

**TFT Monitors** are becoming increasingly popular as they are space efficient, have shallow enclosures and provide increased visibility with high bright screens.

**Hazardous Area Internet TV Systems** provide an IP address, allowing video from remote rig sites to be accessed and viewed by headquarters and onshore offices.

**CRT Safe Area Monitors and Controls**

**Typical Driller's TV System**
