

SURVEILLANCE MONITORING

Long Range Lens Enclosure

Long-range lens enclosure coupled with EFC Type 448 Pan/Tilt provides ruggedised close observation unit.

BENEFITS

- LONG DISTANCE SURVEILLANCE
- PROTECTION FROM ELEMENTS
- INCREASED SAFETY
- ABILITY TO PAN/TILT HEAVY DUTY LENS ENCLOSURE
- INSTALLATION OF CLIENT LENS

UNIT COMPONENTS

- STAINLESS STEEL
- TOUGHENED GLASS
- WIPER MODULE
- EFC TYPE 448 PAN/TILT

EFC Type 448 Pan/Tilt Uni

THE SURVEILLANCE MONITORING UNIT IS CERTIFIED
TO COMPLY WITH HARMONISED EUROPEAN
STANDARDS.

SURVEILLANCE MONITORING

CCTV, safety and surveillance are important in today's industry environment. Ensuring personnel, assets and locations are protected as far as possible from external threats is on the top of most business agendas.

Through the design and manufacture of protective housings for large long-range lens, EFC is quick to answer market needs. Typically long-range lenses are big and heavy making them too bulky for standard Pan/Tilt units.

EFC resolved this problem by coupling the EFC Type 448 with the protective lens enclosure. Due to the ruggedised 448 and size there is no loss of performance capability and no operation limitations.

SPECIFICATION

TYPICAL LENS ENCLOSURE

INTERNAL LENGTH	1012mm
WIDTH	324mm
WEIGHT	30kg + lens weight
MATERIALS	Stainless Steel & Toughened Glass

EFC TYPE 448 PAN/TILT

LENGTH	505mm
WIDTH	356mm
WEIGHT	45kg
MATERIALS	Cast Alloy, Finished in an Acrylic Stove Enamel suitable for Marine use
ARC OF TRAVEL	Pan variable between 10° and 355° Tilt variable between 5° and 177°
WORKING TEMP	-15°C to +70° ambient
WORKING SPEED	Pan 5.5° per second Tilt 4° per second
POWER SUPPLIES	220/240V AC, 110V AC, 24V AC
